*Join us at AACT's National Technical Seminar, where confectionery professionals gather to learn about topics important to production, industry happenings and changing regulations. You'll have opportunities to network with industry experts to discuss issues and solutions encountered in production and business. Here's a sneak peek at some of this year's topics:*

- **Chocolate application realities**
- **An inside look at hard candy manufacturing**
- **Spicy candy ingredients**
- **Using social media to boost morale internally**
- **Confectionery surface treatment (finishing/polishing)**
- **Using chocolate – enrobing, moulding and panning**
- **Product design through the eyes of the consumer**
- **Regulatory update**
- **Differences between types of colloids**
- **Building a basic chocolate formulation**
- **Controlling humidity in manufacturing environments**
- **Chocolate testing – parameters, testing requirements, production, rheology**

**AACT, 711 W Water St, PO Box 266, Princeton, WI 54968, USA**
